CHICCO TOOTHPASTE MILD MINT WITH FLUORIDE		

Eye protection :

Not required for normal use. Always operate in compliance with the good manufacturing practices.

Hand protection :

Not required for normal use.

9) PHYSICAL AND CHEMICAL CHARACTERISTICS

Physical state : paste

Colour : white

Odour : characteristic, like reference

Viscosity: 29500 - 201000 mPa.s

pH: 6.0 – 7.0

10) STABILITY AND REACTIVITY

Product stable at room temperature.

If suitably stored and handled, no hazardous decomposition products develop.

11) TOXICOLOGICAL INFORMATION

Cytotoxicity evaluation on human keratinocytes in vitro. Result: predictive of very good biocompatibility in vivo.

Further toxicological data:

Based on our experience and on the available information the product poses no health hazards, if correctly handled and used according to the instructions for use reported on the label.

12) ECOLOGICAL INFORMATION

Generally not hazardous.

If used as instructed and for the foreseen purposes, the product causes no damage to the environment.

Do not let the undiluted product or large quantities of water into ground water, water bodies or sewers.

13) OBSERVATIONS ABOUT DISPOSAL

The product must be disposed of in accordance to the national regulations in force. Do not
